

Charlotte DeWolff

Fulfills senior producer obligations for Piksuk Media Inc. and oversees project administration and management.

She is recognized as a leader and builder within the film & television industry of Nunavut. Her tenure in the Arctic includes several years as Manager of Inuit Communications Systems Ltd.'s full-service television and video/film production facility. She has experience in producing and production management for varied commercial and series television projects, as well as film and video productions. Charlotte has served as Executive Director of Ajjit, Nunavut Media Association and continues to be an active member of the organization.

Past projects have included collaborations with both domestic and foreign producers. She has been involved in industry mentoring and training projects, as a mentor, creator, trainer and coordinator. Her clients have included: APTN, CTV, TSN, CBC, Alliance Atlantis, BBC, World Wildlife International, CPAC, Territorial and Federal Government Departments, and both national and international independent film producers.

Charlotte was a member of the Government of Nunavut's working group that developed the Nunavut Film Policy. She was a founding executive member of Ajjit (2002), Nunavut Film, Television and New Media Association. She has coordinated industry special events, including film festivals, industry symposiums, international trade missions and film, television, digital media training institutes in 2006, 2008 and 2009.
